Go Beyond Sound

CASIO DIGITAL PIANO
CDP-S Series

CDP-S Series

Featuring a remarkably slim body, this new CDP-S displays evolutions in both its sound and keyboard.

Design

Slim body just 232 mm in depth

Casio has applied its highly compact construction technologies to achieve a size that is even smaller than previous CDP series. This compact piano can be played anywhere, in your own style.

Sound

Includes not only an authentic piano sound, but a variety of other expressive tones [CDP-S350]

700 different sounds are built in, from keyboard instruments such as the grand piano, organ, and harpsichord to stringed, wind, and percussion instruments. (The CDP-S100 and CDP-S150 contain 10 sounds.)

Touch

Scaled hammer action keyboard II

For the new CDP-S series, Casio has significantly reduced the size of the action mechanism that simulates the weight of the hammers in a grand piano. This allows for a keyboard with a responsive touch in an amazingly slim body.

Feature

Accompaniment rhythms [CDP-S350]

Choose from accompaniment in various genres, including pop, rock, jazz, and dance music. Enjoy a jam session or ensemble playing on top of rhythm accompaniments. (Except CDP-S100 and CDP-S150)

Supports battery operation

In addition to household electrical power, the CDP-S supports battery operation, allowing players to freely enjoy performing anywhere.

• Example configuration of CDP-S350 with optional CS-46P stand

■ Duet Mode

The keys to the left and right of center on the keyboard can be set to the same tonal range. This Duet Mode is convenient when two players, such as a parent and child or a teacher and student, practice together. (Except CDP-S100)

■ MIDI Recorder

Record your own performances to the CDP-S' internal memory. Playing back these recordings can be helpful in lessons or other situations. (Except CDP-S100)

■ Support for three-pedal unit

The optional three-pedal unit supports the half-damper pedal. Bring an even greater level of expression to your performances. (Except CDP-S100)

Chordana Play for Piano

Chordana Play for Piano app provides users a smart and easy-to-use operation

Free Download

Connect your CDP-S to your smart device, and easily access settings and additional features.

Piano Remote Controller

Use your favorite device to adjust your CDP-S series settings, select Tones, and more.

PDF Score Viewer

Display music scores saved as PDF files, with pedal-activated page turning.

Audio Player

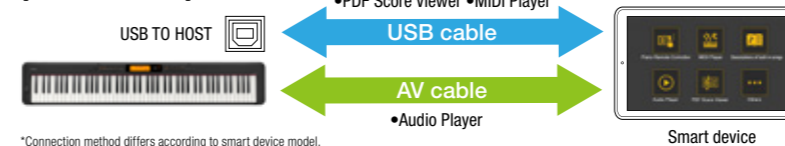

Play back audio on your device with musical tools such as key shift and tempo change, looping, and melody cancel. *With some audio files, melody cancel may not be able to cancel the entire melody.

MIDI Player

Play back your favorite MIDI songs.

*USB cable, AV cable, and adapter (sold separately) are required to connect a smart device to the CDP-S series.

[Connection method]

*Connection method differs according to smart device model.

*Confirm operating system compatibility for individual models on the AppStore or GooglePlay™.

*Connecting the USB cable and the AV cable at the same time, the operation with the USB cable takes precedence.
